## CAREER SUMMARY

I’m Movindu, a 20-year-old Sri Lankan undergraduate currently in my second year at APIIT University, pursuing a BSc (Hons) in Software Engineering. I am passionate about building innovative and user-focused digital solutions, specializing in full-stack development and mobile application development. I enjoy working with modern technologies, solving real world problems, and continuously improving my skills through hands on projects and teamwork. With a strong commitment to learning and a growing technical skill set, I aim to contribute effectively to dynamic development teams and create impactful software experiences.
